GENERAL INDEX TO VOLUME LIV

July 1 to December 31, 1921

EXPLANATORY NOTE

Illustrated articles are marked with an asterisk (*), book notices with a dagger (†), inquiries with a double dagger (‡). The cross-references condense the material and assist the reader, but are not to be regarded as complete or conclusive. So, if there were a reference from "Boiler" to "Gage" and if the searcher failed to find the required article under the latter word, he should look through the "Boiler" entries, or others that the topic might suggest, as he would have done had there been no cross-reference. Letters are indexed under title or subject, general articles under writer's name as well. Not all articles relating to a given topic necessarily appear under the same entries.

Following is a list of the pages included in the several numbers of the volume, by date:

July	5	Pages	1-44
"	12	"	45-84
"	19	"	85-122
"	26	"	123-162
Aug.	2	"	163-204
"	9	"	205-242
"	16	"	243-276
"	23	"	277-310
"	30	"	311-346
Sept.	6	"	347-398
"	13	"	399-432
"	20	"	433-468
"	27	"	469-508
Oct.	4	"	509-546
"	11	"	547-582
"	18	"	583-620
"	25	"	621-662
Nov.	1	"	663-704
"	8	"	705-748
"	15	"	749-786
"	22	"	787-826
"	29	"	827-870
Dec.	6	"	871-912
"	13	"	913-952
"	20	"	953-996
"	27	"	997-1036

A

Absorption system failed, Why the, Jackson *599
Accident in Minneapolis, An unusual.... 701
Accident to ammonia compressor *544, discussion 693
Accidents, Elevator ..... †948
Accounts, Power-plant—I. What is accounting? Miller *408, 421, II. Use of journal and ledger *448, III. Use of journal and ledger (continued) *489, IV. Indirect expense *528, V. Indirect expense (continued) 558, VI. How to record the indirect expenses *596, VII. Interest 636, VIII. Considerations in buying equipment—Meaning of depreciation 680, IX. The power plant as a manufacturing department *719, X. The "Income" and "Profit and Loss" accounts *769, XI. The "Surplus" account *806, XII. Debit and credit—The cash account *848, XIII. Closing ledger accounts *891, XIV. Investment account and reserve for depreciation and obsolescence *934, XV. Scrapping equipment *979, XVI. General scheme of the accounts *1013
Acme power plant at Toledo..... *434
Activities of the Bureau of Yards & Docks ..... †824
Adjusting interpole field *939
Advertising, Employment 816
Air chart, Excess, Brown *568
Air compressor, Indicator diagram from.. *‡153
Air compressor, Piping for *460
Air compressor—Preventing main-bearing studs from breaking *537
Air-compressor valves be prevented from breaking, How can? *32
Air compressors, Motor drives for..... 152
Air compressors, Operation of Diesel, Ford. *222
Air compressors, Pull-in torque of synchronous motors on..... 538
Air compressors, Testing small *388, 538
Air compressors, The regulation of *918
Air economizers 69
Air, Emptying barrels with compressed... *268, 497, 574, 654, *694, 737
Air jets with underfeed stokers, Use of auxiliary *174, *652
Air, Preheat of boiler-furnace 340
Air pressure for air-lift pump, Submergence and ..... ‡906
Air, The economizer 853
Air, Time required to fill tank with compressed ..... ‡907
Air to boiler furnace, Preheating..... *424
Akron, O.—High-head centrifugal pump.. 192
Alabama Power Co. to run Muscle Shoals plant at once 866
Alarms, Fedeler hot-bearing *1008
Aligning crankshaft bearings 152
Aligning engine and generator shafts..34, *229
Alignment of crankpin, Testing ..... †988
Allen, F. B., Death of 309
Allis-Chalmers Diesel, Setting valves on, Keller *263
Alloys, Thermal Electrical and Magnetic Properties of, Smith ..... †1034
Alternating-current generators, Multiple operation of, Thompson 108
Alternating-current generators, Repairing large—Work on the core, Rea *400, Rewinding *575
Alternating-current instruments, Common types of—Switchboard meter connections, Reinman *625, 650
America, What fuel means to, Misostow..*561
American Boiler M'f'rs. Ass'n. 40
American Chemical Society—The limitations of silent chain drives..... 741
American Electrician's Hand-Book, Croft..†660
American Engineering Council—Waste in metal trades industry 198, In the building industry also 200, Executive Board to meet in Washington 238, Studying the problems of Industry 773
American flue cleaner *715
American Inst. Elec. Engrs.—Papers *26, 29, *76, Papers 825
American Soc. Heating and Ventilating Engrs.—Dean Anderson, New director of research laboratory 395
American Society of Lubrication Engineers-Theory of Lubrication 740
American Soc. Mech. Engrs.—Paper *36, A start toward a new steam table 42, Papers *80, *118, Size, etc., of Society 120, Paper 156, Engineering Index for 1921 †160, Paper 198, To co-operate in Ordnance development 200, Paper *272, Ed. 266, Interpretations of Boiler Code *306, Address *411, 479, A. S. M. E. Code in the oil fields 422, Power Division next to largest 465, Address *521, Boston Section discusses standard operating code 658, Elevator Safety Code 659, Power & Fuel Waste Topics for Annual Meeting 822, Fuel Problems Discussed at New Haven Meeting 822, Working on Code for Miniature Boilers 824, Papers, 825, A. S. M. E. Condensed Catalogue of Mechanical Equipment †868, Virginia Section discusses the engineer in foreign trade 868, Waterbury Section discussion belting 868, Washington, D. C., Section discuss engineering standardization. 868, Announcement of annual meeting 866, Interpretation of the A. S. M. E. Boiler Code *698, Colfax station featured before Chicago A. S. M. E., 698, Election of new members to executive committee of Power division 768, The A. S. M. E., Low 953, Annual meeting report *954, Papers presented at annual meeting 956, *957, 958, 959, 960, 961, 962, 963, *964, 965, *966, 967, *968, Hartford section A. S. M. E. 1033
American Society of Refrigerating Engineers—Seventeenth annual meeting 991
American Soc. Safety Engrs. 578
America's power Resources, Gilbert and Pogue ..... †395
Ammonia compressor, Accident to *544, discussion 693
Ammonia compressor, Experiences with an old time, Jackson *605
Anderson, Dean, new director of research laboratory 395
Anderson Foundry and Machine Co.—Low-load ignition device for semi-Diesel engines *560
Anderson, The limitations of silent chain drives 741
Anthracite and bituminous coal, Pipe-line transportation for, Orrok and Morrison 699, Ed. 688
Anthracite mine waste efficiency, Burning, Rau *828, 853
Anti-Corrosion Engineering Co. Inc.—Deactivator deaerating apparatus *329
Applications due to lack of funds, Difficulties in handling water power 854
Applications filed, Two important water power 908
Arizona Copper Co., Ltd.—Removing scale from surface condenser tubes with hydrochloric acid, Hardy ..*22, 29, 390, Ed. 386
Armatures, Locating faults in d.-c.—Coils and windings, Briggs *358, Single-parallel windings *525
"As a man thinketh, so is he," Low..... 205
"As Is," Strohm 123
Ash conveyor, "Combusco" *330
Ash-conveyor performance, Steam-jet..... 149
Ash-handling equipment, Saving by proper, 150
Ashes to save unburned fuel, Treating.... 647
Argentina needs Diesels 867
Arrangement of soot-blower piping, Commendable *941
Artificial gas, Gov't. puts out data on....1032
Ashpit, Benefit of water in ..... †738
Ashpit, loss from chain-grate stokers, Recording, Bailey *118
Associated Engineering and Supply Co. of San Francisco—The Merit automatic oil-stoking system *531
Association Iron and Steel Elec. Engrs.—Chicago convention *540, A cautious recommendation 569, Papers 577, *606
Atlas Valve Co.—Victor high-pressure damper regulator *140
Atmspheric Gas Burners, Design of Bureau of Standards ..... †868
Augsburg ten-cylinder four-stroke-cycle U-boat Diesel engine, The, Bogert..... *932
Austin, Tex.—Low power costs in a small flour mill, Jones 329
Automatic oil-stoking system, The Merit..*531
Automatic starting of rotary converters, Manual vs. Wensley *553
Automobile engines, Fuel economy of.... 341
Auxiliary drives to heat balance, Relation of, McDermet *888
Auxiliary system and heat balance of the Delaware station, Hopping *957

B

Babcock & Wilcox, Isaac Harter, new superintendent of 120
"Back to Work" policy advised 274
Baffles, Locating 992
Baffles, Making one-piece—Patching boiler settings *638
Bailey multi-pointer draft gage *686
Bangor Railway & Electric Co.—Welding a hydro-electric generator shaft..... *61, 499
Banki, Prof.—New type of waterwheel...*101
Barrels with compressed air, Emptying... *268, 497, 574, 654, *694, 737
Barrington substation destroyed 542
Batteries, Lead-acid storage, etc. 420
Batteries or generators, Connecting..... *886
Batteries, Testing storage, Webb *452
Batteries, Voltage variations in operation of storage, Webb *48
Battery in and out of commission, Placing a storage, Webb..... 142
Baxter, Defective controller caused motor to burn out 679
Bearing metal, Bronze for, Keenan..322, 653
Bearing metals, Characteristics of, Keenan. 977
Bearing—Molecular attractions of contact, 111, 461, 499, 612
Bearing—Speed of oiling ring..... ‡696
Bearings, Aligning crankshaft 152
Bearings, Bureau of Standards tests ball and roller 910
Bearings, Rebabbitting engine *56
Bearings—Stopped up oil passages cause leaky, Briggs *798
Bearings, Treating hot 612
Bearings, Using a File on 693, discussion *860, 943
Beckerleg, James G.—His career *384
Belt conveyor, Steel *1008
Belt over belt, Driving belted generators..‡427
Belt ran to the low side This..... 333
Belt, Reducing slippage of oil-soaked governor ..... ‡575
Belt, Removing oil from an oil-soaked.. *231, 387
Belt, Running with a slack *150
Belts run up, Why *73, *114
Belts and their care, Sweet *723
